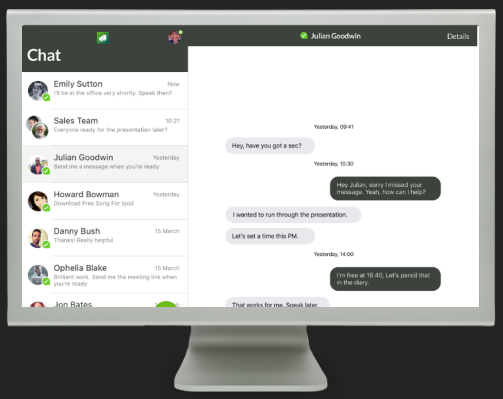
COMPLETE DESKTOP PHONE SOLUTIONS

For business customers, managing communications and increasing productivity in today's dynamic, distributed, mobile economy is extremely challenging. With CT Cloud Voice, network operators can support customers of any size to meet these challenges by quickly and reliably delivering feature-rich, high-quality, and secure business communications solutions.

COMMPORTAL FOR CT CLOUD VOICE

- View missed calls
- Listen to voicemail messages
- Manage your contacts
- Set up rules to route your calls
- Configure Voicemail to Email and Voicemail notification
- Perform many other functions



ACCESSION COMMUNICATOR

Accession Communicator is a powerful UC application that enables carriers to extend their business telephony services directly to an end user's laptop, desktop or portable device or handset. These endpoints present the actual calling features, dial plans and outgoing caller ID of the twinned office phone. Accession is ideal for remote workers and mobile workers who are increasingly bringing their own devices (BYOD).

THE BENEFITS

- HD Voice and Video Calling
- SMS texting with file sharing and presence
- Powerful pre-call and in-call control features
- Identical calling features and caller ID on all devices
- Applications for Windows, MacOS, iOS and Android
- Unique network management tools and analytics

ABOUT CALLTOWER

Since its inception in 2002, CallTower has become a leading provider of cloud-based, enterprise-class Unified Communications as a Service (UCaaS) and Contact Center as a Service (CCaaS) solutions for growing organizations worldwide. CallTower provides, integrates and supports industry-leading, cloud-based, UCaaS and CCaaS solutions, including Cisco® HCS, Cisco® Webex, Native Microsoft® Teams Direct Routing, Microsoft® Office 365, Enterprise Hosted Skype for Business, CT Cloud Voice, CT Cloud Boost, CT Cloud Meeting powered by Zoom and Cloud Contact Center for business customers.

CallTower enhances our clients' strategic and operational capabilities by integrating VoIP service, mobile applications, email hosting, unified messaging, instant messaging, audio, web and video conferencing, collaboration tools, contact center, cloud services and global networks solutions into one reliable platform.
