Lumen® Fiber+ Internet

Enterprise-grade performance available on demand.

Small and medium businesses need internet that can handle the bandwidth demands that next-generation business applications and data require to operate efficiently. Fiber+ Internet delivers the scalability, reliability and simplified self-service shopping options to help you easily upgrade your network capacity as your business grows and evolves.

Reliable, scalable bandwidth

Upgrade bandwidth to support next-gen apps as your business grows with reliable services and optional installation.

Enterprise-grade at small business prices

Modernize your existing investments and run next-gen apps without reinvesting in your infrastructure.

Exceptional customer experience

Adjust your upload and download speeds as needed through a streamlined digital portal. Lumen delivers business value with predictable, flat monthly service rates.

LUMEN® TECHNOLOGIES

Use Cases

Accelerating business growth with reliable connectivity
Gain efficiency and maximize productivity with fast uploads, downloads, file sharing and more on a high-speed network connection with the power to upgrade in a few clicks.

Utilizing cloud applications on your existing network
Minimize downtime while accelerating productivity with the network speed and reliability you need to optimize your cloud environment.

Gaining access to a full technology eco-system
Simplify IT operations and ordering through our easy-to-use digital portal and get enterprise-grade support when you need it, delivered with a predictable pricing model.
