BULLSEYE TELECOM

Traditional Phone Service – POTS

Juggling multiple carriers, too many invoices, and unfriendly support can be a drain on time, money, and resources.

Let the experts at BullsEye Telecom deliver and optimize your traditional phone service (POTS). We'll minimize the hassle and consolidate all of your lines into a single, easy-to-manage platform. You'll enjoy reliable, economical nationwide coverage for every location, all from one provider – and on one invoice!

The BullsEye Way

1. Consolidate	2. Optimize	3. Contain	4. Evolve
We evaluate and consolidate your current lines.	We review and eliminate unnecessary lines, features, and charges, for immediate savings.	We preserve the integrity of the cleanup, making changes only as needed to add new products and technologies.	We work with you to identify new cost savings or features, for best-in-class service for years to come.

The BullsEye Difference

Controlled, fully-managed migration to BullsEye service

One provider to call – no need for multiple vendors

Our people – the best customer service team and project management in the industry

No more billing nightmares with one single invoice

Plus, when you're ready to upgrade your telecom system to the next level, we can provide a customized migration path to VoIP.
