PCCW Global

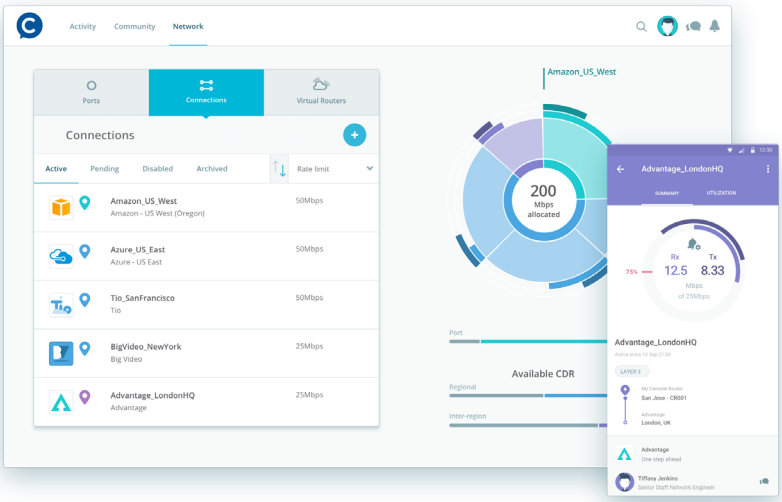
Digital Solutions Delivered

As business-critical applications and content move into the cloud, Enterprises need increased performance, predictability and security.

Software-Defined Interconnection®

On-demand, private, predictable, instant, secure connectivity anywhere and any time.

Console Connect by PCCW Global is the world's first Software-Defined Interconnection® platform that makes connecting to cloud-based business critical applications and your business sites simple, predictable and secure.



Why is it different?

Console Connect by PCCW Global combines:

- PCCW Global's extensive Tier 1 global network
- Console Connect's software and powerful social network interface with layer 2 network automation software
- A unique ecosystem of XaaS providers (SaaS, IaaS, PaaS) – business critical applications and partners connected across the globe

Software-Defined Interconnection®

The Console Connect platform enables customers to privately interconnect with their own business community of XaaS solutions, enterprises, data centers and network service providers on-demand — all with a single click.

With Console Connect you can connect

- between your own sites
- to your business partners
- to cloud platforms and applications
- cloud to cloud

Console Connect delivers

- Improved performance
- Access and global reach
- Enhanced visibility and monitoring
- Reduced complexity
- Instant provisioning
- Time savings
- Reduced security threats
- Occasional use case

All your connectivity needs, delivered
