As more IT leaders pick Microsoft Teams as their collaboration application, they are quickly running into the challenges and limitations of implementing a complementary enterprise voice solution. Until now, 3rd party telephony solutions for Microsoft Teams have been clunky, complex and extremely difficult to implement and manage.

Not anymore. 8x8 Voice for Teams completely changes the paradigm and sets a new bar for how enterprise telephony solutions integrate with Microsoft Teams, with only a few simple steps to set up for IT administrators while leaving the Microsoft Teams user experience unchanged.

Join us to hear how you can drive sales with Microsoft Teams Users. During this 45-minute webinar we will cover:

- 8x8 Voice for Microsoft Teams Product Overview
- 8x8 Value Proposition
- Competitive Landscape
- Product Demonstration
- Demand Generation Resources for 8x8 Partners
