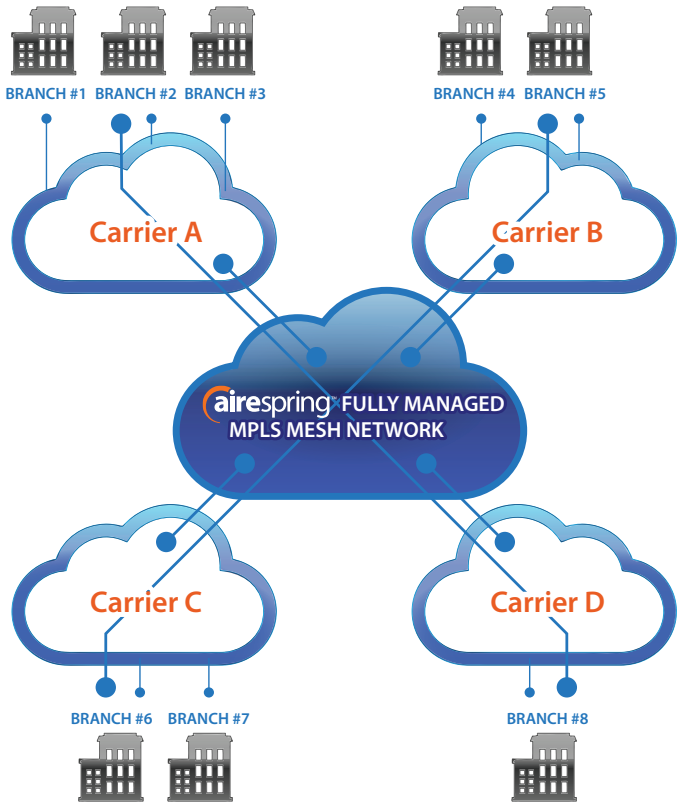
Cloud, Fully Managed and Connected

MPLS MESH

Upgrade Your Network to a High Performance, Flexible, and Secure IP-Based Solution

AireSpring's MPLS IP-VPN meshed network is the ultimate product for organizations requiring fully meshed, any-to-any private IP networking. Unlike traditional MPLS or Wide Area Networking (WAN) solutions, our fully meshed network allows you to select the most cost effective access for each of your locations and combine them seamlessly and securely. All services are protected with preconfigured geographically diverse alternate routes to mitigate core network disruptions.



FEATURES

- Fully managed cloud communications suite over MPLS available
- Seamlessly normalizes end-to-end Class of Service (CoS) over multiple underlying networks for comprehensive QoS
- Available IPsec networking for off network sites
- Geo-redundant diversity built into the network
- Optional WAN failover available
- Connectivity options from DS1 to Gigabit Ethernet

ACCESS OPTIONS

A variety of options let you choose the connectivity that is right for your business.

- Fast Ethernet
- Gigabit Ethernet
- DS1 – 1.5 Mbps, Bonded 3.0 to 12 Mbps
- DS3 (Full Port and Fractional)
- OC3
- OC12
- Ethernet over Copper available in expanded coverage areas

If you're looking for a network solution that combines security and flexibility with built in affordability, AireSpring's MPLS IP-VPN is the solution for you. Contact an AireSpring authorized partner today to learn more about MPLS MESH.

Cloud, Fully Managed and Connected

TOP BENEFITS OF THE AIRESPRING ADVANTAGE

- **Unique MESH Architecture**
  We merge more than 12 top tier carriers to provide a resilient, high performance network that offers the lowest cost access for each location.
- **Eliminate Finger Pointing Between Providers**
  By having all services delivered by a single vendor on a fully managed network, you avoid the finger pointing and blame game that occurs when you have cloud communications services delivered by a different vendor than your connectivity.
- **Largest Available Coverage**
  From Somerset, CA to Madill, OK to Moravian Falls, NC to New York City, we cover more locations than anyone else on our network with the largest combined North American MPLS footprint.
- **Free On-Premises Enterprise-Grade Router/Gateway**
  AireSpring provides a fully managed enterprise-grade router/gateway to manage VoIP and Data traffic. (With AireSpring Cloud Communications Services)
- **Reliable and Diversified Network**
  AireSpring's geo-redundant network provides true network diversity and supports disaster recovery options, allowing you to ensure business continuity.
- **Online Access via our AireCare™ Customer Portal**
  Our AireCare online advanced billing reporting portal gives you 24/7 access to your billing and service details.
- **Free 24/7 Proactive WAN Network Monitoring Service**
  AireSpring's Managed Connectivity services include free 24/7 professional monitoring with the AireNMS network monitoring service. Our NOC proactively monitors your network to pinpoint and fix potential problems before they affect your business. (Included when ordering AireSpring managed router or Cloud Communications Services)
- **Personalized Service**
  We back you up with outstanding customer service, featuring one bill and a single point of contact for all your service needs.
- **Escalation List Up to Our CEO**
  We stand behind our service 100%! In fact, we're so committed to ensuring complete satisfaction that we provide all of our customers with an escalation list giving you access all the way up to our CEO.

AireSpring has received numerous industry awards for "Product of the Year," "Best Telecom Deal," "Members Choice Top Reseller," "Best in Show," and "Top Channel Program."
