Consolidated communications

What you don't know *can* hurt you

CONSOLIDATED.COM / CLOUD-SECURE

Don't let your business get blindsided by a cyberattack

With IT environments growing ever more complex and new security threats emerging every day, make sure you take prudent steps required to protect your business.

Consolidated's Cloud Secure is a fully managed security platform that proactively monitors your security 24/7/365. Cloud Secure assures the most enhanced level of network protection, guarding companies of all sizes from system intrusions and security threats that put critical applications and data at risk.

With security being a highly specialized focus area, Consolidated can help your team with the expertise required to guard your network and fully protect your business. We can work together to reduce your business risk and give you the peace of mind knowing that your business is fully protected.

Did you know?

1. **The surge in remote working has increased the likelihood of a cyberattack.**
   Remote workers may use devices that are compromised. You need to ensure these threats do not enter your IT environment.
2. **Ransomware attacks are threatening more businesses.**
   From Q4 2019 to Q1 2020, the average ransomware payout increased 33% to $111,605.[1]
3. **Attacks are on the rise since the COVID lockdown began.**
   The FBI now receives 3,000 to 4,000 calls each day on cybersecurity complaints vs. 1,000 per day pre-COVID.[2]

1. *Ransomware: Average Business Payout Surges to $111,605. BankInfoSecurity.com, April 30, 2020.*
2. *FBI sees major spike in coronavirus-related cyber threats. The Hill, June 24, 2020.*

Cloud Secure provides

- **Next generation firewall technology**
- **Latest threat intelligence**
- **Advanced network protections**
