Switchvox® Cloud

EMBARK ON THE JOURNEY FROM

PREMISE TO CLOUD

Switchvox Cloud elevates your Switchvox experience by:

- Removing the hassle of managing your own hardware
- No more Switchvox yearly renewals
- Offering access to 24x7 support
- Allowing you to add and drop users with ease
- Providing the option to keep your phones

As your on-premise Switchvox subscription renewals expire, we want to offer you the unlimited feature benefits of Switchvox in a new, easier way to manage.

We are offering a **never-before-seen** price reduction when you upgrade your on-premise Switchvox to the Cloud! Usually, you would pay $24.99 per user/per month. Right now, when you sign a 3-year unlimited contract, we are offering:

$12.99 PER SEAT PER MONTH REG 24.99

Best of all, you can take a backup of your on-premise system and move it to Switchvox Cloud. This allows you to keep your IVRs, queues, routing rules, and extension assignments the same as they are today. Contact us or your reseller now, and let us help you start saving with Switchvox Cloud today.

TERMS AND CONDITIONS:
Pricing available on 3-year unlimited contracts only. Valid from July 1 - Sept. 30, 2021. Must be a Switchvox on-premise customer with either current or expired subscriptions in order to receive this special pricing.
