# E-LINE

*Point-to-Point Connectivity. Redefined*

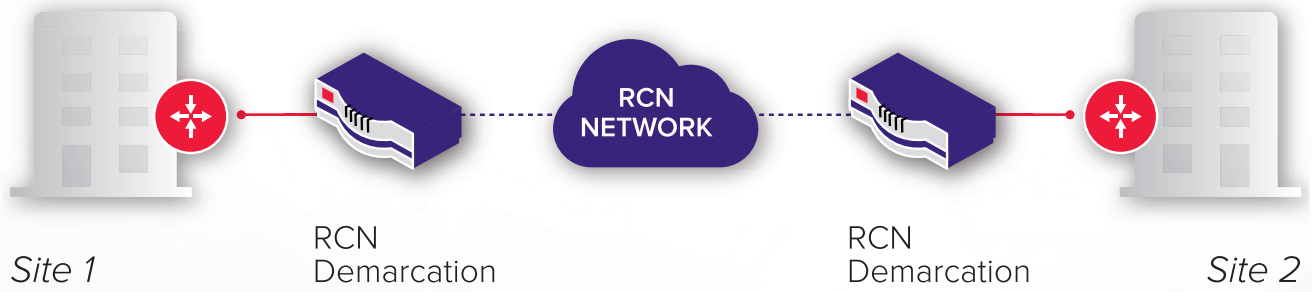
*Enhanced network communications are critical to the success of any business organization with multiple locations. A reliable Ethernet-based network solution from RCN Business is an affordable and superior alternative to outdated frame relay, private line and data T1 offerings, delivering increased capacity, enhanced security and scalability.*

## E-Line

For businesses in need of connecting two locations, RCN Business offers **E-Line** service, providing businesses with a secure point-to-point Ethernet connection between two user network interfaces.

Delivering symmetrical speeds between 10 Mbps and 100 Gbps, this cost-effective alternative to traditional TDM Private Lines enables enterprises to interconnect two locations so that they appear to share the same LAN despite the distance between them.

- A secure point-to-point connection between two locations for fast and reliable site-to-site connectivity
- Avoid complicated VPN setup and transfer data safely and security over RCN's private network
- SLAs for availability, latency, packet loss and mean time to repair
- MEF CE 2.0 certified solutions available
- End-to-end network monitoring 24/7/365
- Dedicated local support



## RCN Network

Data travels over RCN's own resilient, fiber-rich network, offering extensive fiber with redundancy and enhanced performance. Because of its robust network, service disruptions that are more likely to occur with older generation copper and TDM networks are minimized.

## Partnership, Choice, Technology

With a variety of products, services and contract options available, RCN Business takes a consultative approach in developing a customized solution. A representative will identify communications needs and create a best-in-class solution.

**RCN Business topped PC Mag's Business Choice Awards for 2016**

Ranked highest for overall satisfaction. Best overall Internet service.
Highest ranking on value. And most likely to recommend.
