WI-FI CALLING

Wi-Fi Calling is the **most cost effective in-building voice solution** available today. A Spot On Wi-Fi Calling network provides your residents and tenants with clear and reliable voice coverage throughout your entire property including garages, corridors, elevators and subterranean levels. The same Wi-Fi network also provides your property with high speed Wi-Fi data access, support for IoT, private VLANs, staff services and more! Your property can provide Wi-Fi services as an amenity or generate a new revenue stream!
