GlobalMeet® Webcast Virtual Events

The business continuity topic is top of mind as organizations everywhere struggle with travel challenges and hosting live events. We're here to help. With GlobalMeet Webcast, we can quickly set up webcasts for hundreds or thousands of viewers, allowing you to quickly and easily maintain communications with your most critical audiences.

How GlobalMeet Webcast Can Help:

- Video broadcast important messages to thousands with a simple click
- Record training or key corporate updates that can be stored and replayed
- Deliver events live, simulated-live or on-demand
- Leverage dozens of engagement tools to keep audience captivated
- Access comprehensive analytics & reporting to understand your webcast audience engagement and measure success

Hosting Virtual Events:

GlobalMeet Webcast partnered with 6Connex to offer a Virtual Events Platform, enabling you to host virtual trade shows, job fairs, summits or establish e-learning programs at your business.

Available anywhere you have an internet or phone connection, our enterprise-grade streaming solution keeps businesses and teams productive, no matter the business challenges. Skip the trip and host events with prospects, customers or employees from anywhere, anytime.

Check out our new video introduction to webcasting **here** or **contact sales** directly to discuss how GlobalMeet Webcast can help with your virtual event needs together with 6Connex.
