Connectivity by Convergia

Connectivity

USE CASE: Three ways CxC Flex Direct Multicloud can improve your connection to the cloud

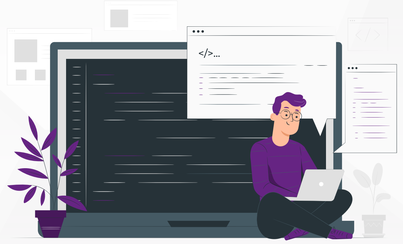
1 Create a secure network connection

Use CxC Flex Direct Multicloud to create a direct and private connection without public internet

2 Improve network capabilities

Increase data transfer efficiency

Take advantage of low latency and reliability



Take advantage of increased bandwidth (up to 10 Gpbs)

3 Lower costs

Reduces connection costs related to downloading Cloud Services information (up to 25%)
